

I am concerned about the proposed change to replace some FM translators with LPFM. I frequently listen to a K-LOVE translator and greatly appreciate the positive message this station provides to myself and my community here in Portland, OR. I can think of no other station that consistently covers positive news stories and balances these with the negative stories. If K-LOVE was forced off the air it would be a significant loss for our city. Thanks for considering my comments.

Sincerely,

Sean Nygaard
